

EDUCATION	
University of Delhi	Aug 2019-May 2021
Master of Science (MSc) in Informatics from Institute of Informatics and Communication (IIC)	
• Scored 8 th Rank in the Delhi University Entrance exam for the admission in Master’s program.	
MDU University, Rohtak	Aug 2016-Jun 2019
BSc (General) -	
• Secured 3 rd rank in the batch with the highest marks scored in Physics.	
WORK EXPERIENCE	
Centricity Wealth Tech, Data Scientist	Oct 2023- Present
In the Data Science and Analytics Team of a Series B startup in wealth management (Finance/Asset Management) domain which was in its initial series A funding when I joined the same.	
• Developed and deployed production ready Machine Learning models out of financial market data from scratch which are live on Centricity’s website. Few examples include dynamic asset allocation and rebalancing of client’s portfolio.	
• Also, responsible for setting up ETL pipelines to make a centralized repository of data flowing from different departments of Centricity as well as other formats of live data from different sources to migrate from SQL to NOSQL databases using orchestration and batch streaming ETL tools.	
• Developing a chatbot to be configured in website as an AI assistant which can give personalized suggestions to client.	
• Tools and Techniques Used – Python, Django, Rest API, Apache Airflow, Apache Kafka, LLM, Langchain, RAG, Vector Store, ML Ops, Tableau, ETL Pipeline, Linux, GIT, Docker, Kubernetes, Llama Index	
Cognizant Technology Solution, Data Scientist	Mar 2022- Oct 2023
In the Risk Evaluation and Continuous Risk Monitoring Team for automated way of risk assessment using predictive text analytics and continuous model training.	
• Designed an advance sentiment analysis model leveraging documents from various data sources by comparing various sentiment detection algorithms like Vader, Text Blob, Spark NLP.	
• Used different techniques and tools to extract data from scanned pdfs especially tabular data.	
- Extensive use of state-of-the-art NLP algorithms like BERT, ELMO to make a supervised machine learning model that can automatically detect the sentences that were relevant to business.	
- Named Entity Recognition and Cluster Analysis on text data to extract definite keywords from the text.	
- Automation of the complete process to minimize human intervention.	
• Tools and Techniques Used – Python, Azure Databricks, Azure Cognitive Services, Dynamic Topic Modelling, Spark NLP, Agile Methodology, MySQL, Named Entity Recognition, Sentiment Analysis, Tableau Dashboards	
Zucol Group, Technical Research Analyst	Dec 2020- Mar 2022
Worked as a Data Science consultant on different projects and helped them in achieving their complex business requirements.	
• Day to day responsibilities included Research the latest technologies, processes, devices, materials, and techniques by playing an instrumental role in finding innovative ways of developing products for customers.	
• Was awarded as a “Night Owl of the Team” for my availability as whenever the team needs.	
• Led a 6-member team to deliver additional insights- e.g., data collection, data analysis and business models for partners etc.	
• Tools and Techniques Used – Python, R, SAS, Rapid Miner, Spark NLP, Computer Vision, YOLO, Web Scraping, Power BI	
SKILLS AND TECHNOLOGIES	
Experienced Area: Data Science, Machine Learning, Deep Learning, Data Analysis, NLP, Regression Analysis, Text Mining, Statistics, Natural Language Processing, MLOPS	
Languages: Python, C, SQL, Java, R, Excel	
Framework: Tableau, Power BI, SAS, Pytorch, Tensorflow, Keras, Version Control, GIT, Hugging Face, Azure cloud services, including Azure Machine Learning, Azure Databricks, Azure Data Factory, Azure Storage, and Azure SQL Database.	
Platforms: Amazon Web Services, Google Cloud Platform, Heroku, Microsoft Azure, AWS, GCP	
Algorithms - Regression (Logistic, Linear), Random Forest, Bagging, XG-Boost, GBM, NLP, NLG, BERT, Image Processing, Computer Vision, Deep Learning, CNN, RNN, Resnet, Transformers, Pytorch, GAN, LLMs, Large Language Models	
OTHER ACHIEVEMENTS AND PERSONAL INTERESTS	
Extra-Curricular	
• Awarded and recognized as the “Quiz Master” for participating in different academic competitions mostly related to general awareness at university level.
