Summary

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with experience building full-stack applications, AI systems, and enterprise-grade IAM platforms. Proficient in Python, Java, C++, Go, SQL, and modern web technologies. National-level athlete and team captain who brings the same discipline and leadership to engineering and sports management roles.

Education

VIT Bhopal University

B.Tech in Computer Science (Spec. in AI/ML) – CGPA: 8.73

Bhopal, India

Sep 2023 – May 2027 (Expected)

St. Patrick's Junior College

Class XII – 91.25%.

Agra, India

2022 – 2023

Class X – 93.5%.

2020 – 2021

Technical Skills

- **Languages:** Python, Java, C++, Go, SQL, MATLAB.
- **Web Development & Backend:** Flask, FastAPI, HTML5, CSS3, REST APIs, Tkinter, React, Node.js, JavaScript.
- **Databases & Cloud:** MySQL, AWS Cloud Services, Vercel, Render.
- **AI/ML & Data Science:** TensorFlow, PyTorch, Scikit-learn, IBM Watsonx.ai, OpenCV, Keras, Pandas, NLP, Generative AI, Qwen-Agent, Ollama.
- **Developer Tools & Libraries:** MediaPipe, Git, Kaggle, Matplotlib, GAN Architectures (DCGAN, WGAN-GP), LLM, Prompt Engineering, Pygame, NumPy.

Experience

TENXPLUS Creations Pvt. Ltd.

May 2026 – Present

Associate SDE Apprentice – Zeroh Platform Engineering

- Developing 5+ microservices and 15+ REST APIs for a Clerk-like IAM platform supporting authentication, authorization, and session management.
- Implementing JWT, OAuth 2.0, MFA, Passkeys (WebAuthn), and refresh token rotation to strengthen platform security.
- Engineering RBAC/ABAC authorization across multiple permission domains, enabling granular access control and audit logging.
- Integrating PostgreSQL, Redis, API Gateway, and CI/CD pipelines to support scalable identity and session management.
- Collaborating with platform engineers to deliver an enterprise-ready IAM solution supporting future OIDC, SAML/SSO, and OAuth provider integrations.

Assistant Sports Secretary

Sep 2024 – Aug 2025

VIT Bhopal University

- Orchestrated 5+ inter-college sports tournaments for 500+ participants, coordinating logistics, scheduling and on-ground operations across multiple sporting events.

Projects

Editor's Digest – Local AI Web Summarizer

Jun 2026

Asynchronous NLP & LLM Streaming Pipeline

- Architected an end-to-end asynchronous web summarization streaming pipeline using the Qwen-Agent framework.
- Deployed a 1.7B parameter LLM locally via Ollama, ensuring 100% user data privacy while maintaining a zero-egress architecture.
- Developed a secure Chrome Extension (Manifest V3) implementing strict Content Security Policy (CSP) compliance by bundling local parsing libraries (Marked.js) to achieve fluid, real-time Markdown-to-HTML rendering.

Pneumonia Detection from Chest X-Rays

Jan 2026

Medical Imaging AI

- Developed a CNN-based deep learning model to classify chest X-ray images into Normal vs. Pneumonia categories, achieving an 89% validation accuracy.
- Engineered a scalable image processing framework capable of processing over 1,000 medical records per hour across highly variable resolutions and noise profiles.

GAN Face Generator

Aug 2025 – Sept 2025

Generative AI Pipeline

- Implemented a deep generative pipeline leveraging DCGAN and WGAN-GP models to generate high-fidelity human face images from 100-dimensional latent vectors.
- Stabilized adversarial training through gradient penalty methods and optimized repository assets using Git LFS for large model weight management.

Zaika Balance – Smart Diet Recommendation

May 2025 – Jun 2025

Nutrition & Health Platform

- Built a full-stack nutritional health platform utilizing Flask and Next.js that predicts daily caloric requirements with 92% regression accuracy and generates personalized meal recommendations in under 0.5 seconds.
- Designed an intuitive optimization engine delivering customized meal plan recommendations in under 0.5 seconds based on specific biometric inputs.

Certifications

- **Preparing Data for Analysis with Microsoft Excel** - Microsoft
- **IBM AI Engineering** - IBM
- **Fullstack Web Development** - Udemy
- **AWS Cloud Practitioner Essentials** - Amazon Web Services (AWS)
- **Generative AI Using IBM [Watsonx.ai](#)** - IBM
- **NPTEL Certifications (Elite: Cloud Computing; IoT)** – IIT Kharagpur
- **Java Programming** - Hackerrank
- **Python Programming** - VIT
- **Fundamentals of AI & ML** - VIT
- **MATLAB**

Achievements

- Finalist in the VITB-JHU Health-Hack 2026 for developing AI Emergency dispatch system.
- Solved 150+ algorithmic problems on LeetCode across Data Structures and Algorithms topics.
- Active in coding competitions and hackathons.

Leadership & Co-Curricular Activities

Captain, Women's Basketball Team

Sep 2024 – Sep 2026

VIT Bhopal University

- Selected to lead the basketball team as Captain (9 - 12 players), directing tactical plays and training regimens that carried the squad to championship-winning (1st place) finish at the intercollege championship.
- Anchored the team across competitive inter-university circuits, prominently representing the institution during the AdvITYa '26 Sports Fest.

National Athlete & Swimmer

National Level

St. Patrick's Junior College

- Recognized as a 2-Time National Athlete after securing the 1st Position at the State Level in both the 400m and 800m track events.
- Competed as a National - Level Swimmer, representing the state team in the highly competitive 4x100m Freestyle Relay event.
- Served as the Main Player for the State Basketball Team at the National Championship, leading the squad to secure the 2nd Position (Silver Medalist in states) overall.
